

The Wellness Collective

BRINGING NEIGHBORS TOGETHER TO SUSTAIN

The Wellness Collective

2021

THE WELLNESS COLLECTIVE

Our Services

Neighbor-to-neighbor resource collective for emergencies, stability, and longevity.

ABOUT THE COMPANY

The Wellness Collective currently serves in Allegheny County, PA and brings neighbors together around a shared mission: to restore and maintain power and interdependence in our communities. As neighbors, our interests are shared. We support one another in moments of difficulty, and, through this, we sustain our community as a whole. In the spirit of solidarity, The Wellness Collective collaborates with people who are experiencing crises to develop effective solutions that mitigates need.

Our aim is to restore stability and strengthen resiliency. We do this by listening to our neighbors, facilitating local resource collection and redistribution, and improving accessibility to services. Our model is designed to offer practical solutions, so we, as a community, are empowered to respond to one another's needs. It facilitates relationships of respect and mutual aid. Standing side by side and reclaiming our unified power, The Wellness Collective reimagines what is possible when society places its people at the center.

WHAT WE DO

- Broker community resources
- Create points of access for sustainability
- Create events and programs to improve quality of life and promote community
- Create economic opportunities for neighbors
- Remove barriers to growth, sustainability, and community for neighbors

WHO WE WORK WITH

- Neighbors
- Community Groups
